Capt. White, of this office, continues quite feeble and has not been at his case for two weeks. We trust he will be back in a few days, sticking 'em faster than ever.

Having Lots Of Fun.

A party composed of Messrs S. H. Yeager, J. A. Wood, and Robt Routz, left last week for Petosky, and they write back that they are catching big fish and having more fun than so many pet pigs.

For R. R. Co.

The suit of Jas Parks against the L and N railroad, which case has had three trials, was decided in favor of the railroad company Monday. The suit was for damages by loss of a horse which ran on the tressel, near Lowell.

If you want first-class fare at reasonable rates, stop at the Palace Hotel, when in Cincinnati. It has decidedly the best location, best fare, and best accommodations, and you are not made to pay unreasonable prices, either. Its at Sixth and Vine sts, one block above Fountain Square.

A Wonderful Treatment.

We call attention to the card of Dr. Sid Isbell, in this issue of The Record. Dr. Isbell is a graduate of a leading school of osteopathy, and has located in Lancaster. As one who has found relief by this treatment, we take pleasure in saying a word in its behalf. His card will give particulars, and we will take pleasure in giving our experience to any one interested.

Reunion of Mexican Veterans.

Richmond Register.—The State reunion of Mexican veterans will take place here on September 15th. Of all the gallant warriors from Kentucky who fought for Mexican Independence, scarcely one hundred remain, and at each annual gathering there are gaps in the ranks to close, and the "thin gray line is feebler."

Capt Frank J White, of The Record office is the only veteran left in Garrard, and it is his intention to go to Richmond, his old home.

We Appreciate This, Sure.
Winchester Democrat.—Work has begun on the Lancaster Water Works and the city will soon have complete protection from fire. To Louis Landram, the indefatigable editor of The Record is this due more than to any one else. He is always urging something that will benefit the town and is worth a regiment of moss backs who say things would be nice but cannot be had.

Now Is The Time.

There is no more delightful time to take a vacation at Crab Orchard Springs. The fare is splendid, and just now the waters will be of more benefit to you, as the weather is not so warm and the nights pleasant. Manager Willis has a good crowd of excellent people there now, and a most pleasant vacation, one that will be of undoubted benefit to you, can be had.

Memorial Methodist Church.

Owing to absence of the pastor this week at the Annual Conference of pastors and laymen at Cynthiana, at Cynthiana, the congregation will worship with sister churches at the 11 a.m. and 7:30 p.m. services, next Sunday, Sunday School 9:30 as usual. Annual Summary and Report of the Memorial Methodist church of Lancaster for 1902-3 for church year ending Sept. 1, to be made at the annual convocation of the Central Kentucky churches at Cynthiana this week, for all departments of exhibit, will be encouraged to be used in buying new song books for the church.

Game Wardens.

An effort is being made through the various fishing and hunting clubs throughout the State to secure the passage of a bill by the Legislature creating the office of Fish and Game Commissioner and providing for Deputy Wardens in each county. Sportsmen are satisfied with the existing laws for protecting game and fish, but want to see them properly enforced.

Bunch Of Railroad Boys.

Last Friday, five of our old railroad friends were in our office and to say it reminded us of old times does not express our pleasure. There were Engineer Johnnie Clark and Fireman Charley Claire, of Covington, Section Foreman "Billy" Brown, of Lowell, Soliciting Freight Agent Will Wheritt, of New Orleans and Mail Clerk Geo. Harden, of the K. C., all here at nearly the same time. There is no vocation more fascinating than railroading, and few of the boys ever leave it. We had rather watch the movements of a railroad engine, with an expert at her throttle, than witness the finest opera ever put on the stage.

One Thousand Dollars.

The case of Mrs B F Walter against the town of Lancaster for damages by reason of her falling over some curb stone and into a ditch, was tried Friday, the jury awarding the plaintiff \$1,000 damages. The Council had placed the stone there and dug the ditch to construct a sidewalk in front of the Walter's property, and during the night Mrs Walter was compelled to cross to a neighbor's to get some one to go for a doctor for her husband, who had been taken suddenly ill. The attorneys prayed an appeal, which was granted, and the case will now go through the court of appeals. Mrs. Walter was represented by Messrs Tomlinson, Williams and Hamilton, while City Attorney Swinebroad was assisted by Capt. Wm. Herndon and Mr. J. M. Rothwell.

All Honor to Him.

When the American Farmer rises early in the morning it is to look over broad fertile acres that are his own. When he goes forth it is to fields that no human being can lawfully step upon without his consent. When he gathers and garners the harvest he stores up what, in a vast majority of cases, no greedy and rapacious landlord can take from him. It is all his. The proceeds of it are to clothe and feed him, and his family and educate his children; to be his support of his old age and the heritage of his posterity. Looked at from every point of view, it is doubtful if there is another human being under the heavens who has more cause for carrying a light heart and a contented mind, regarding the past with satisfaction and the future with hope than the American farmer.

Teacher's Institute.

The County Teacher's Institute convened at the Graded School Building here Monday with Prof M A Cassidy, of Lexington, as Instructor. A feeling of gloom and sadness was apparent with the teachers when it was known that Mrs L L Walker, the County Superintendent, was unable to be present and preside at the Institute. Prof Mannix, Principal of the Graded School is presiding in her stead however, and in a way that makes everyone feel very much at home.

Mrs Gulley was chosen Secretary and, after the usual committees, the regular Institute work began. The attendance is good, nearly all of the teachers having enrolled the first day, and from the first up to the present the interest has been increasing, each teacher responding to his name when called upon to take part in the discussion of any subject. At present indications point to a very interesting and successful week's work, of which we hope to be able to give a fuller report next week.

Jno. Oakes sold to W S Ferguson a fine work horse for \$125.

The town is filled with pretty teachers this week. The Record has always made the boast that Garrard could outshine any sister county in this line.

Fine Tomatoes.
The best crop of tomatoes raised by gardeners in town is that of Mr Walker at the jail. They are the largest ever seen in this section, and de-lightful in taste.

Circuit court is grinding along this week, a number of civil cases occupying the court's attention. Nothing of importance to the public has been done. The case against Metcalfe charged with the killing his brother near Paint Lick was continued until next court. The defendant was allowed bail for the sum of \$1,500.

Supper at Antioch.
The ladies of New Antioch church will serve ice cream and cake at the residence of Mrs Dr Amon next Saturday night. 5cts for cream and cake. A cordial invitation is extended all to come and enjoy the evening. Proceeds to be used in buying new song books for the church.

CENTRAL RECORD.

LOUIS LANDRAM.

Entered at the Post Office in Lancaster, Ky., as Second-Class Mail Matter.

Lancaster, Ky. September 4, 1903.

The Cincinnati Post asks its exchanges for an answer to the question, "Why should the reader attend the Fall Celebration in Cincinnati Sept. 7 to 19?" The answer is an easy one for those familiar with the hustling, up-to-the-minute Queen City. If the reader is a merchant, he should take advantage of the low railroad rates to see the big show and be enabled to visit in person the great wholesale houses, conceded to be equal to any in the United States and there select his stock, getting better goods and better bargains than his sleepy, stay-at-home competitors can possibly get by ordering through the mail. Merchants of experience say they get as good bargains, have as large displays to select from and receive as liberal terms in Cincinnati as they do in New York, and the fact that all the well-posted buyers go to Cincinnati proves the assertion. The low railroad rates will also furnish splendid opportunity for the people to visit the great Queen City retail stores, a chance they seldom have, and they will be given the advantage of selecting the very best goods, at lowest possible figures and from an assortment not surpassed even in New York. If the reader is looking for pleasure, a good time, he will certainly will get his money's worth in Cincinnati. The amusements are always first-class, but this year the Festival Association has secured the very best that good judgement, experience and money can bring together, and these in themselves are enough to justify the reader in attending the great celebration. There are many more reasons, both as to profit and pleasure, and The Record is so confident the visit will be of unmeasured benefit that we insist upon the reader taking a few days off, spending them in the Queen City during the great Fall Celebration.

Some of the gourd-headed dudes, just back from college, should read the following, from the Winchester Democrat: To the young man just out of college, with a head so wide and high that he can barely enter the door of the father's humble cottage, we would say: Don't value dad's brain at less than fifty per cent. The par value of your own. He may have some ideas inside his shaggy old pate that would at least come waist high to yours, even if he did have to live nearly half his days in that slow and poky age before you thought it worth while to be born.

"They All Spoke Well of You," is the title of a new song now going the rounds. The lines do not say so, but it's a safe bet the one the song is written of is dead, as universal praise is only heard of the dead, in this day of slander and back-biting.

Carrie Nation, the saloon-smasher, is to go on the stage and star in "Ten Nights in a Bar-room." From Mrs. Nation's past history, it seems that ten minutes, instead of ten nights is all the time she wants in a bar-room.

One politician licked six others in a Louisville saloon Friday evening. He evidently got his drink of Louisville whisky before the other six could get to theirs.

Up in a neighboring county, a Mr. Miracles married Miss Moore and some newspapers headline the item "Moore Miracles."

Men who want to buy hogs to feed report them exceedingly scarce in the surrounding country and also higher than the city price would warrant.

Many of young people from this place attended a camp meeting in Jessamine county Sunday held by Miss Lucy Mahan. She has recently held a series of meetings at Gunns Chapel here and much good was accomplished having had forty-five converts.

It is with sadness we chronicle the sad death of Mrs Willie Ray, who died Saturday evening and was interred in the Lancaster Cemetery Sunday afternoon. She leaves a husband, one little babe, 8 months old, father and mother—Mr and Mrs J D Nave—three sisters and two brothers to mourn her untimely death. Myrtle was hardly twenty years of age but had been a member of New Antioch church for several years, having given her heart to God while quite young. A bright and lovely life has gone. As we stood and looked upon her pure sweet face in death we could but ask the question, "Why has God chosen her, one so bright with a young devoted husband and sweet little child to leave a home surrounded by so many loving ties?" And this thought came, "The brightest flowers are first plucked." She had been sick just four weeks with that dread disease typhoid fever, was very ill from the first, but repeatedly was heard to say, "I am not afraid to die." She has gone to join the little one who preceded her to the heavenly home eleven months ago.

What Is Life?

In the last analysis nobody knows, but we do know that it is under strict law. Abuse that law even slightly, pain results. Irregular living means derangement of the organs, resulting in Constipation, Headache or Liver trouble. Dr King's New Life Pill quickly readjusts this. It's gentle, yet thorough. Chamberlain's Cough Remedy has a remarkable record. It has been in use for over thirty years, during which time many million bottles have been sold and used. It has long been the standard and main reliance in the treatment of croup in thousands of homes, yet during all this time no case has ever been reported to the manufacturers in which it failed to effect a cure. When given as soon as the child becomes hoarse or even as soon as the croup cough appears, it will prevent the attack. It is pleasant to take and many children like it. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. For sale by all druggists.

WATCHING

For the husband's homecoming does not usually outlast the early months of marriage. And this not because of any lessening of affection, but because the wife finds the time for the evening meal come before she is ready for it. She blames herself for her lack of energy, but the truth is that her vitality is being reduced by unhealthy drains, and the labor that seemed so light a few months ago now taxes all her strength.

Women who feel weak and tired out will find new strength in the use of Dr. Pierce's Favorite Prescription. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness.

"In April 1900 my strength gave out entirely. I tried to go to bed, but failing with female weakness, also with pain and inflammation," writes Mrs. Ellen D. Rollin, of Piercerville, Ripley Co., Ind. "I tried a physician's remedy for a month but got no better—only weaker. Tried another medicine six weeks, but got no better; was quite discouraged. My husband gave me a bottle of Dr. Pierce's Favorite Prescription. I began taking it, and in two months I was able to do my housework. Took twelve bottles of 'Favorite Prescription' also four of 'Golden Medical Discovery.' I regained my strength and weigh twenty-five pounds more than I ever did before."

Accept no substitute for Doctor Pierce's Favorite Prescription.

Dr. Pierce's Common Sense Medical Adviser in paper covers is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N.Y.

KEEPING COWS CLEAN.

Faith and Trust in God Is the Only Thing That Lifts a Man Above Sorrow.

A Little Device Which Should Be Carefully Studied Because It's Worth Introducing.

The illustration shows a cow stall in actual use. The contrivance over the shoulders of the cow is the unique feature. Cows, when urinating, naturally arch the back, and if confined by rope or stanchion, will crowd as far ahead as possible, thus allowing their waste to fall exactly where they would stand when feeding. The little device shown in the illustration in no way

COW IN THE STALL.

interferes with the arching of the spine, but does force the cow to draw back instead of pushing ahead; thus the gutter back of the cow catches the filth and the floor remains clean. There is no rule to give for the exact placing of the structure, as different breeds of cattle differ so in height and length; however, piece No. 2 should be located just back of upper point of shoulders, and from one and one-half to two inches above the back. This gives a chance for free movement and in no way interferes with the comfort of the cow. My cows are Jerseys, and frame is just 20 inches from stanchions. No. 1 is a block on which to fasten No. 2. No. 3 is the upright which should extend to the joint above, and there be fastened. No. 4 is a brace for the support of the frame, and should be nailed very firm, as the cow will break the trap if she can. No. 5 is the gutter.—Orange Judd Farmer.

MAKING GOOD BUTTER.

All Authorities Are Agreed That Success Depends on Proper Ripening of Cream.

The all-important question of the day with creamery and dairymen is how to obtain a uniform and fine flavored butter. Nearly all investigators agree that the secret lies in the proper ripening of the cream; and when we read of the tons of low-grade butter brought into the markets daily, owing to the fact that the negligence or ignorance as to the proper treatment of the cream lies at the root of this great fault, it appears to be a point worthy of consideration.

To state the subject of starters plainly and intelligently, it is necessary to take the fundamental principle of the ripening of cream into consideration. The ripening of cream includes two features upon which the quality of the butter largely depends. These are flavor and texture. The effects of ripening with starters are far more marked upon the flavor of butter than upon the texture, for it is during this process that the characteristic flavors are developed. Cream ripening is merely a fermentation process caused by bacterial growth. This growth is controlled by tem-

perature by which a rise from 60 degrees Fahrenheit, and not to exceed 100 degrees Fahrenheit, induces growth and develops immense numbers of bacteria; while lowering the temperature retards growth. The action of these germs in cream results in the conversion of a part of the milk sugar into lactic acid, and a slight formation of carbonic acid gas and a few other volatile constituents not definitely known.—Midland Farmer.

Electricity and Milk.

The unusual number of thunderstorms last summer should have been accompanied by a large amount of sour milk, if the old belief that thunderstorms sour milk is true, but there has been no complaint on that score so far as reports show, says Hoard's Dairyman. It is certainly true that milk is frequently found sour after a severe thunderstorm, and it is natural that there should be a popular belief of a relation between the two facts, but as soon as we endeavor to verify the claim by the actual trial of sweet milk by electrical discharges we find that the electricity fails to work and the milk remains sweet, for electricity in the form of sparks discharged indefinitely over the surface of milk fails to show any effect in producing acid or souring the milk.

The Mixed Milk Ratio.

Roughage is nearly the same everywhere, corn silage, cornstalks and hay. The question is what to use for a grain ration to be fed with the above kinds of roughage to produce the most milk. Most farmers have corn and oats, which they grind and feed mixed with a little bran; this does not furnish the most desirable nor the cheapest ration when production is considered. Leave out the corn entirely, as worse than useless, and substitute cottonseed meal, even at \$30 per ton. By feeding four pounds bran, four pounds oats and two pounds cottonseed meal, with silage, cornstalks and hay, or even without the hay, you will get results that will be surprising.—Troy (N. Y.) Times.

JOY IN TROUBLE.

Faith and Trust in God Is the Only Thing That Lifts a Man Above Sorrow.

After having been cruelly beaten with rods, the apostle Paul and his helper Silas were cast into prison and their feet made fast in stocks. About midnight their fellow prisoners were surprised to hear them praying and singing in spite of their bleeding and aching backs. How men could be happy under such circumstances was something which they could not comprehend. From that inner prison into which the missionaries had been put they were accustomed to hear groans and curses, but never prayer or singing. Their amazement, perhaps, accounts for the fact that they did not try to escape when they were set free by the earthquake. They wished to see the men who, though greatly suffering, were impelled to lift up their voices in praise, and, if possible, learn their secret.

The joy of Christians in trouble, says Wellspring, has ever been a surprise to the world. The followers of Jesus are not stoics, whose theory is that one should not be moved by either pleasure or pain. On the contrary, their religion makes them the more keenly alive to both, because it enlarges the heart. Why is it, then, that with keener sensibilities they are sustained in affliction when others break down? Why is it that in circumstances where others worry they have peace of mind?

Surely it is because they have such faith and trust in the love of God. Paul and Silas could sing when others groan, because God was so near to them in their suffering. The balm that the jailor applied to their bruised backs was as nothing to the balm that God's presence brought to their hearts. It is that sense of His presence and love and sympathy that sustains one during the darkest hours, giving him a peace even in sorrow that passeth understanding.

This life is a training school, and no one can escape its discipline, and ought not if he could. But discipline ought not to break down, but to strengthen; and it never will break one down if he but rests all the while in the love of God. God wants us to live lives of joy, not of mourning. If those who are young will but let Christ fill their hearts with His love, they will rejoice in the morning of their life, in its noon, and at its close.

Special Days at the Fall Festival.

In order to meet the particular interests and sympathies of the thousands of people who will visit the Fall Festival at Cincinnati, during the next two weeks, the following days are named, as specially dedicated to celebrating the subjects mentioned in connection with the dates:

Monday, Sept. 7th, Labor Day;

Tuesday, Sept. 8th, Italian-Nic-Nic Day;

Wednesday, Sept. 9th, Home Comer's Day;

Thursday, Sept. 10th, Fraternal Order Day;

Friday, Sept. 11th, Outside School Children's Day;

Saturday, Sept. 12th, Commercial Traveller's Day;

Sunday, Two concerts on the Marco Polo stage, by Sousa's Band;

Wednesday, Sept. 16th, Irish Day;

Thursday, Sept. 17th, Flower Day;

Saturday, Sept. 19th, Cincinnati Day.

Cincinnati is particularly accessible from all parts of the country, owing to a central location, and a very complete system of railroad and electric car lines, which cover the surrounding district and center of the city. One fair, taken the visitor from any of the depots to the Fall Festival by means of a trolley. There are ample hotel, boarding and lodging house accommodations to suit all purposes. Good restaurants furnishing a meal from 15cts upward, about. It is the boast of Cincinnati, that she can entertain 100,000 people daily above her own population, without the slightest inconvenience. Just now, the city is putting on her gala attire, and the elaborateness and variety of the decorations, surpass anything seen at previous Festivals.

Owes his Life to a Neighbor's Kindness.

Mr D P Daugherty, well known throughout Mercer and Summers counties, W Va., most likely owes his life to the kindness of a neighbor. He was almost hopelessly afflicted with diarrhoea; was attended by two physicians who gave him little, if any, relief when a neighbor learning of his serious condition, brought him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which cured him in less than twenty-four hours. The consumptive, whether his disease is in the throat or lungs, must have rest at night, and be free from the spasms of dry and racking cough in the morning. The diseased parts want rest, healing and soothing treatment, and the patient needs fresh air, good food, etc. German Syrup will give free and easy expectoration in the morning with speedy and permanent relief. Small bottles, 25 cents; regular size, containing nearly four times as much, 75 cents. At all druggists.

A Woman's Complexion.

It takes a woman a long time to attempt to remove sallowness or greasiness of the skin by the use of cosmetics, or "local" treatment, as advocated by the "beauty doctors." The only safe and sure way that a woman can improve her complexion is by purifying and enriching the blood, which can only be accomplished by keeping the liver healthy and active. The liver is the seat of disease and blood pollution. Green's August Flower acts directly on the liver, cleanses and enriches the blood, and gives a clear, glowing complexion.

It also cures constipation, biliousness, nervousness, and induces refreshing sleep.

A single bottle of August Flower has been known to cure the most pronounced and distressing cases of dyspepsia and indigestion. New trial size bottle 25 cents; regular size, 75 cents. At all druggists.
